

APPUNTI DI VIAGGIO A SUD

PAOLA  
LENTI

PAOLA  
LENTI

Appunti di viaggio. A Sud

“Conosci la terra dei limoni in fiore, dove  
le arance d'oro splendono tra le foglie scure,  
dal cielo azzurro spira un mite vento, quieto  
sta il mirto e l'alloro è eccelso, lo conosci  
forse? Laggiù, laggiù io andare vorrei con te,  
o amato mio!”

Johann Wolfgang von Goethe, *Ballate, Tutte le poesie*, volume primo, tomo I, Mondadori Editore, 1989.

Il Sud è un luogo simbolico. È un abbaglio di luce dove l'opera dell'uomo si confonde con la natura e rivela l'armonia tra l'immaginazione e il sapere. Un linguaggio complice di segni, forme e colori. La poesia delle proporzioni, la nostalgia della libertà.

"Do you know the land of flowering lemons,  
where the golden oranges shine among the  
dark foliage, a mild breeze blows from the  
clear blue sky, calm is the myrtle and the bay  
tree sublime, do you perhaps know it?

Down there, down there I'd like to go with  
you, my beloved!"

Johann Wolfgang von Goethe, *Ballad, Collected poems.*

The South is a symbolic place. It is a dazzling light where the work of mankind blends with nature and reveals the harmony between imagination and learning. A language redolent of signs, forms and colours. The poetry of proportions, the nostalgia of freedom.

Travel notes. South

Afra Armchairs and pouf in Rope cord: T135, T3505.

A photograph of a bright, airy room with white walls and a large arched opening. The floor is made of light-colored tiles. In the background, there is a red chair and a small table. The overall atmosphere is minimalist and modern.

Kiti Chairs in Rope cord: T0305 | Plano Table with concrete top: 032.

Welcome Sofa in Simple fabric: SI106.

La lavorazione a crochet è una raffinata tecnica manuale rimasta immutata nel tempo e che ancora oggi viene eseguita da mani esperte con strumenti tradizionali.

L'azienda Paola Lenti prende spunto dai vecchi pizzi e dai bordi decorativi usati nelle famiglie del secolo scorso per realizzare tappeti e pouf. I prodotti intrecciati a crochet sono caratterizzati non solo dall'attenzione dedicata ai dettagli, ma anche dalla dimensione e dalla qualità tecnica del filato usato. Il risultato ottenuto è originale ed è impossibile da raggiungere senza una perfetta sinergia fra tradizione e innovazione.

Crochet is a refined handcrafting technique, which has remained unaltered over time and that is still carried out by skilled hands with traditional instruments.

Paola Lenti as a Company creates rugs and poufs inspired by old laces and decorating edges used by traditional families over the past century. Its crocheted products are characterized not only by the attention given to details, but also by the dimension and the quality of the yarn used. This one of a kind result is impossible to achieve without a perfect synergy between tradition and innovation.

Il cucito è la risposta di Paola Lenti all'esigenza di produrre in Italia tappeti moderni di dimensioni importanti. Il tappeto è realizzato come un mosaico, unendo moduli piccoli o grandi, semplici o elaborati, uguali o di dimensioni differenti. In questo lavoro, le cuciture hanno un ruolo fondamentale; richiedono molta attenzione ed esperienza, perché disegnano la superficie del tappeto, ne sono parte integrante e rendono unico ogni esemplare.

Le cuciture assumono aspetti differenti secondo il tipo di prodotto da realizzare: possono essere solide e ben visibili, oppure sapientemente celate nel gioco delle tonalità. Sono eseguite una per una a macchina, con attrezzature speciali, e perfezionate a mano con cura artigianale e grande abilità.

Sewing is the response from Paola Lenti to the need of producing in Italy contemporary rugs of significant sizes. The rug is thus produced like a mosaic, through the repetition of modules: small or large, simple or intricate, of equal or of different dimensions. In such, seams play a key role; they require great attention and knowledge, because they design the surface of the rug itself; they are an integral part of the product and make each piece unique.

Seams take on a different appearance according to the different kind of rug: they may be solid and well visible or can be cleverly concealed within the play of colour shades. They are carried out singularly with special sewing machines and finished by hand with great care and great ability.

L'orto e il giardino come il paradiso perduto, la perfezione dell'origine, le geometrie casuali delle piante e dei frutti gonfi di luce. I colori mutano e si rinnovano, i profumi si mescolano agli odori del vento e della pioggia, i volumi si armonizzano seguendo il ritmo dell'intuizione: una sinfonia.

Flower and vegetable gardens like a lost paradise, the perfection of the origin, the casual structures of plants and fruit inflated with light. The colours change and are renewed, the aromas mingle with the scents of the wind and the rain, the dimensions harmonize following the rhythm of intuition: a symphony.

Architetture vere e proprie completano la collezione di arredi per esterno di Paola Lenti. Si possono formare ambienti completi sotto strutture che delimitano spazi immaginari, precisi ma senza barriere, e che offrono riparo e intimità; oppure si possono semplicemente proteggere i prodotti in modo informale e flessibile con vele e grandi parasole. Le caratteristiche delle sedute, dei tappeti, degli accessori e delle strutture ombreggianti sono coordinate e stabiliscono un rapporto mimetico con l'ambiente esterno attraverso il colore, che riflette il paesaggio e vibra nei mille toni dei tessuti e dei materiali di rivestimento.

True architectural structures complete the Paola Lenti outdoor collection. Some create whole environments and define imaginary spaces, precise yet without barriers, which provide shelter and intimacy; sails and large parasols, instead, can simply protect the products in an informal and flexible manner. The characteristics of the seating furniture, rugs, accessories and shading structures are coordinated and establish a mimetic relationship with the exterior environment through colour, which mirrors the surroundings and vibrates in the thousands of hues of the upholstery fabrics and materials.

Luogo della socialità, dell'incontro e della conversazione. Luogo di passaggio. Il dentro e il fuori, la vita intima e lo spalancarsi al mondo diventano spazi separati da un impercettibile confine. Luoghi di riti domestici e di giochi infantili, segni e sonorità di un tempo remoto che diventano ritmo e linguaggio del presente.

Place of conviviality, of meeting and conversation. Place of passage. Inside and outside, life that's intimate and opens itself to the world, spaces that become separated by an imperceptible boundary. Places of domestic ritual and children's games, signs and sounds of a far-off time that become rhythm and language of the present.

Nella collezione Paola Lenti ci sono materiali che, da quando sono stati presentati per la prima volta a oggi, sono cambiati radicalmente. Le trasformazioni spesso non sono visibili, sono invece di sostanza, e permettono di garantire sempre maggiore durata, affidabilità ed equilibrio fra prestazioni e rispetto dell'ambiente.

Rope è un filato atossico e batteriostatico, disponibile in una vasta gamma di colori esclusivi, resistenti anche a situazioni atmosferiche difficili. Grazie a questo filato, l'azienda ha potuto percorrere per prima la strada della produzione di un vero tessile da esterno, cambiando la scala della tessitura classica e intrecciando non semplici fili ma corde e trecce. Rope è il risultato di anni di sperimentazione in laboratorio e sul campo, condotta anche con l'aiuto di tecnici e professionisti esterni all'azienda, ed è soprattutto un prodotto versatile: con Rope si realizzano tessuti, corde e trecce di rivestimento che permettono lavorazioni molto diverse fra loro.

There are materials in the Paola Lenti collection, which have radically changed since their first introduction. Transformations are mostly non-visible; however, they are of substance and allow for better endurance, reliability and a balance between performance and respect for the environment.

Rope is a non-toxic, bacteriostatic yarn available in a wide range of signature colours, which are resistant even in difficult environments. Thanks to this yarn, the Company has been able to pioneer the production of a true outdoor fabric, changing the scale of classical weaving, replacing simple yarns with cords and braids. Rope is the outcome of years of laboratory and field experimentation, also conducted with the help of outside technicians and professionals; above all, it is a versatile product: with Rope, upholstery fabrics, cords and braids are produced, which allow for the application of a variety of different weaving techniques.

Wabi Lawn-swing in Samo cord: CS79. Cushions in Luz fabric: LT05, LT28.

Traiettorie di luce che si posano sulle superfici, si rifrangono nell'acqua, vibrano tra le fronde degli alberi, si stemperano nel chiarore dell'aria. Muri penetrati dal calore del giorno che si dissolve. Lo sguardo si posa sull'essenzialità delle linee e sulla forza dei colori che sembrano assorbire ed esaltare il dominio della natura.

Traces of light that rest on the surfaces, are refracted in the water, shimmer on the foliage of trees, dissolve into the radiance of the air. Walls penetrated by the heat of the fading day. The gaze lingers on the essentiality of the lines and intensity of colour that seem to absorb and extol the dominion of nature.

Il ricamo è una tecnica manuale che consiste nell'esecuzione di punti decorativi su tessuto seguendo un disegno predefinito.

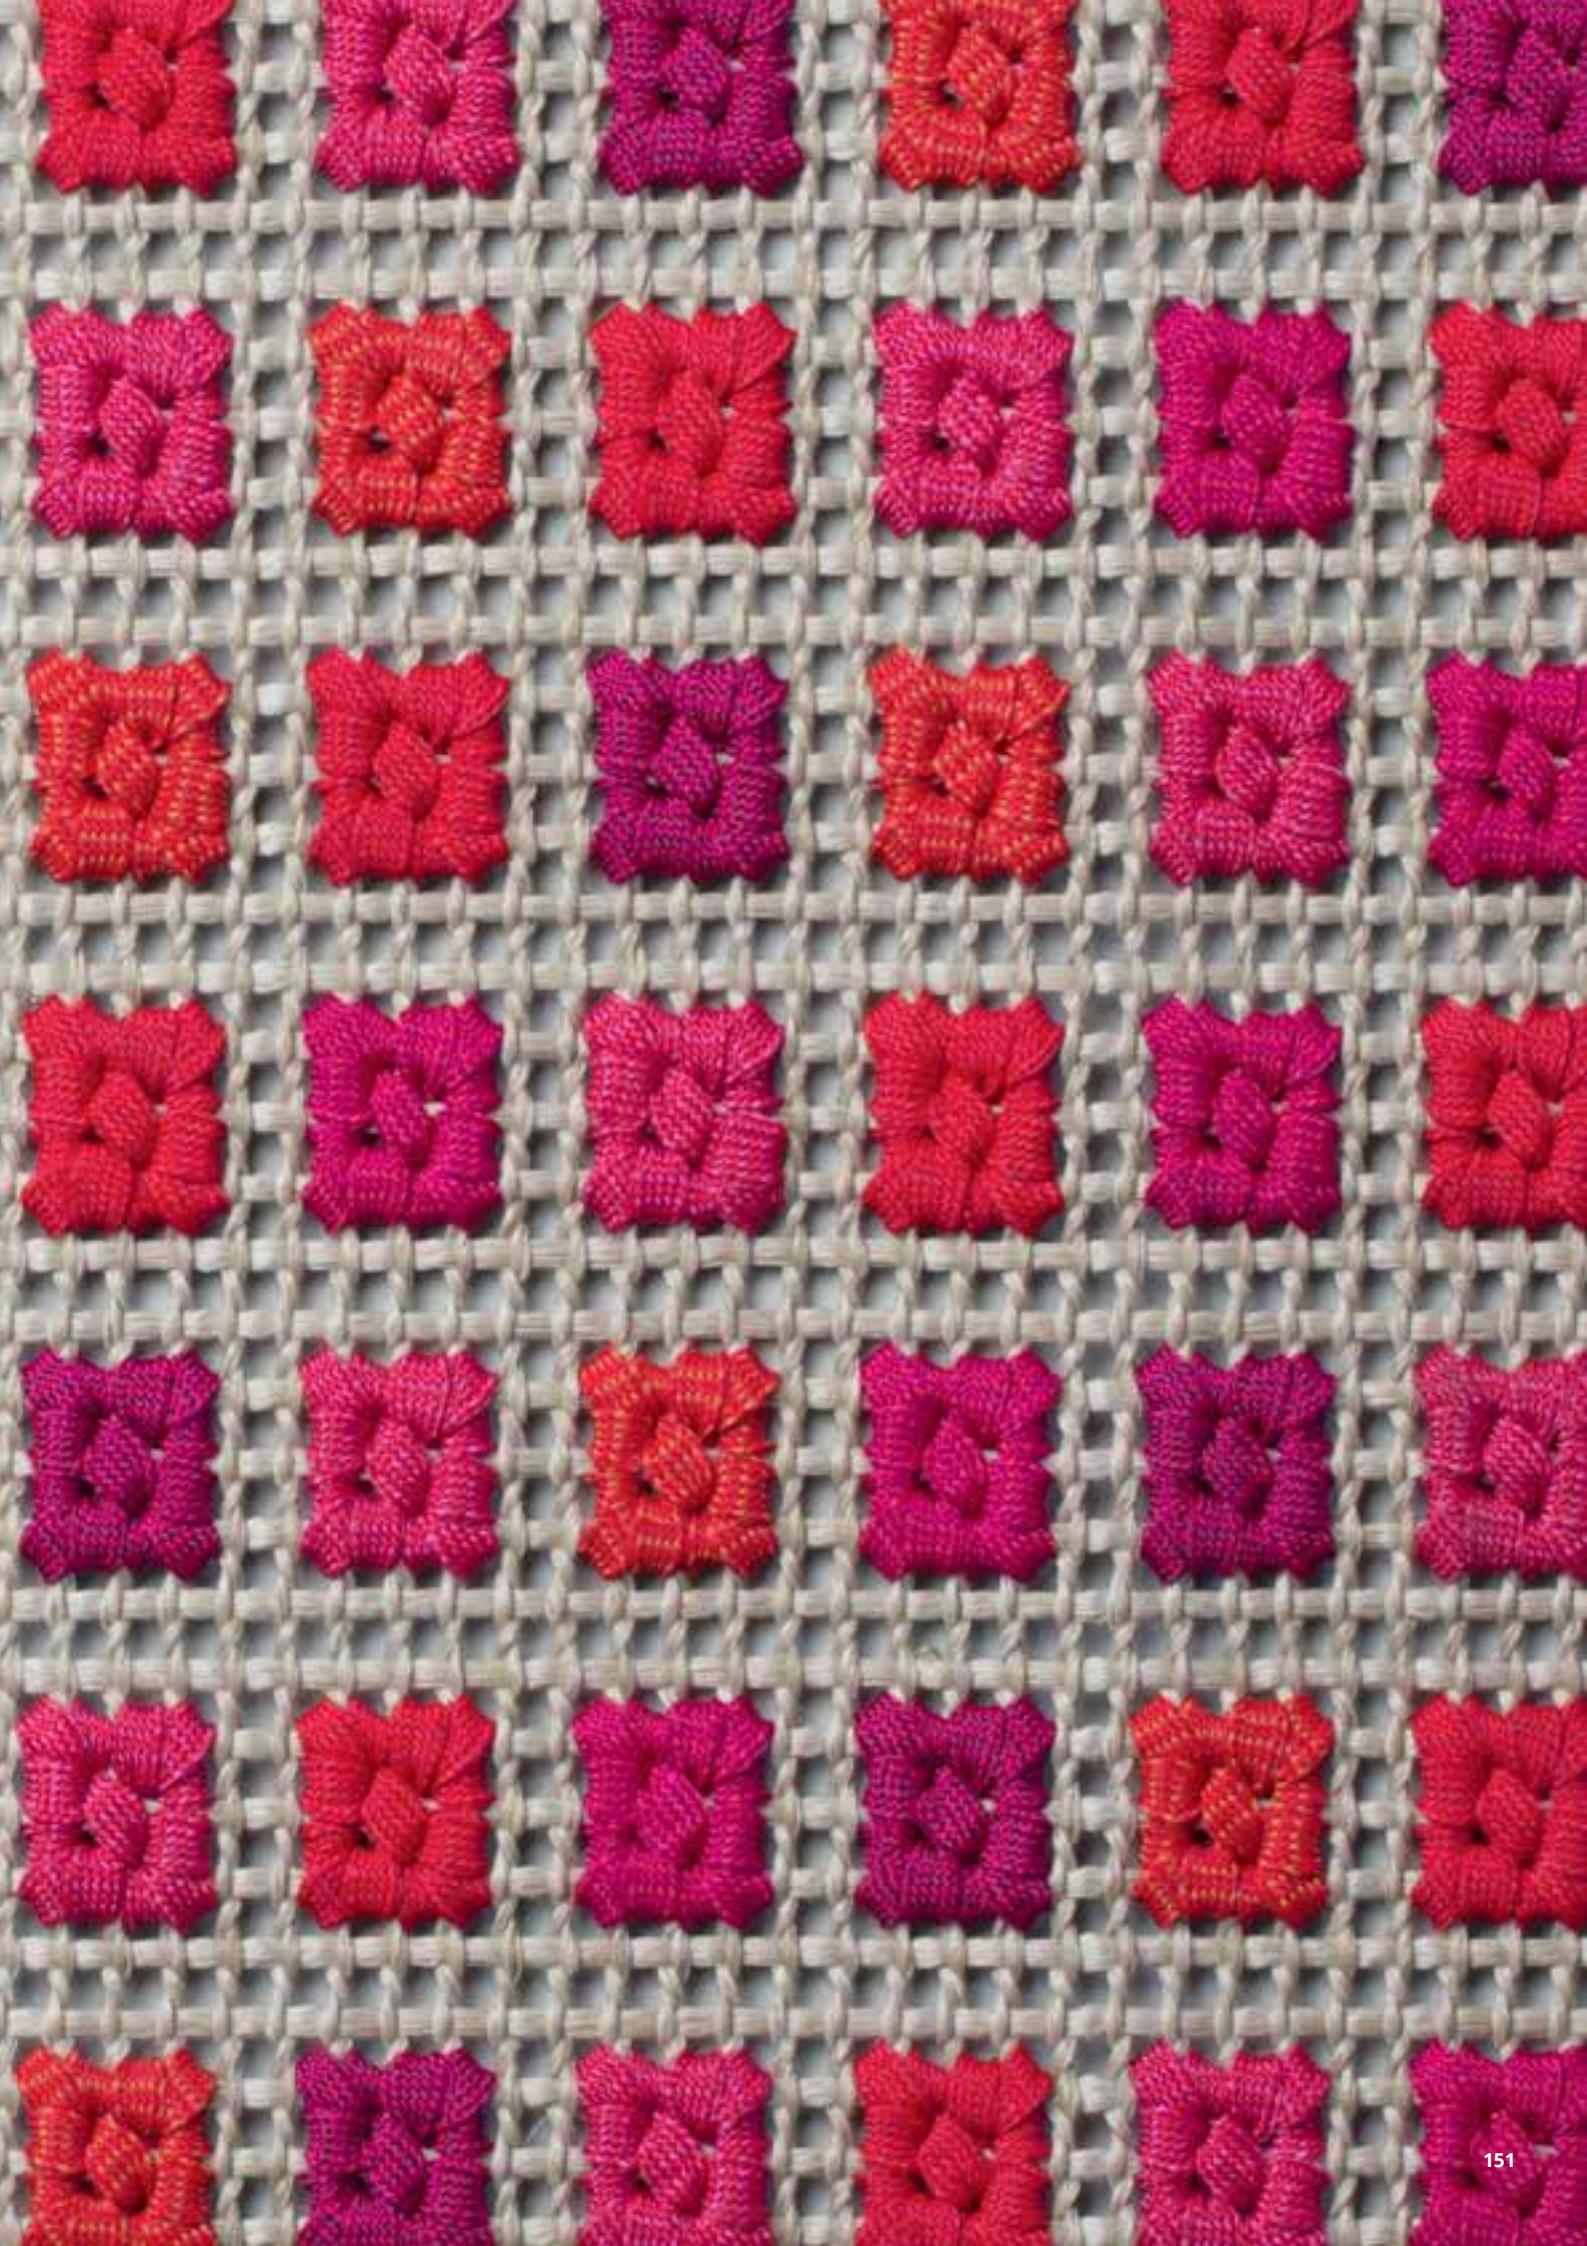

Con maestosi punti a croce, che disegnano fiori e creano nuove geometrie compositive, e utilizzando materiali diversi per sostanza e cromatismi da quelli tradizionali, l'azienda usa questa tecnica per la produzione e la decorazione dei suoi tappeti, sia da interno sia da esterno. I tappeti ricamati possono essere utilizzati non solo a terra, ma anche a parete, dove diventano elementi decorativi o testate per letto.

Embroidery is a handcraft technique, which consists in the execution of decorating stitches on a fabric according to a predetermined design.

With stately cross-stitches, which design flowers and create new composite geometries, and with materials, which are different from the traditional ones in substance and colour, the Company uses this technique for the production and decoration of its rugs, both for the interiors and the exteriors. The embroidered rugs may be used not only on the floor, but also on walls, becoming decorating elements or headboards for beds.

La natura raccoglie in sé l'assoluto che prende forma, le vibrazioni che diventano suoni. Il suo idioletto parla le lingue più sconosciute; solo lo sguardo e l'udito, rispettosi e senza confini, possono comprenderne l'essenza e affidarsi a quella contemplazione che sola può cogliere la vera bellezza.

Da questo incontro nasce l'ispirazione, la creazione del manufatto che ha in sé il suono del vento e il magico calore della luce.

Nature gathers within it the Absolute that takes form, the vibrations that become Sound. Its sound pattern speaks the most unfamiliar languages; only its gaze and its hearing, respectful and boundless, can understand its essence and rely upon that contemplation that alone can capture true beauty. This encounter creates inspiration, the creation of the artefact that contains within it the sound of the wind and the warm magic of the light.

Il tappeto è da sempre considerato un elemento funzionale e decorativo che da secoli fa parte del vissuto quotidiano, sotto forme diverse e in ogni parte del mondo.

I tappeti Paola Lenti sono diventati negli anni complementi d'arredo essenziali; danno carattere all'ambiente, ne definiscono lo spazio e lo personalizzano.

Le collezioni per interno e per esterno, diverse per materiali e prestazioni, sono accomunate dalla stessa passione per il colore e dalla ricerca delle migliori materie prime; attraverso di esse, l'azienda ha sintetizzato l'antico e il moderno, le fibre naturali e i filati tecnici in prodotti destinati a diventare classici per qualità e durata. Tutti i tappeti Paola Lenti si abbinano fra loro, per affinità o contrasto di colore, e possono essere coordinati facilmente con i tessuti e i materiali di rivestimento delle diverse collezioni.

Rugs have always been considered functional yet decorating elements that for centuries have been part of the daily life, in different forms and in all parts of the world.

Through the years, Paola Lenti rugs have become essential accessories; they give character to an environment, delineate its volume and personalize it.

Paola Lenti rugs collections for the interiors and exteriors are different as far as materials and performances are concerned, but share the same passion for colour and the search for the best quality raw materials; the Company has unified ancient and modern, natural and high tech yarns into products destined to become classics for their quality and endurance. All Paola Lenti rugs interact with each other, through colour affinity or contrast, and can be easily coordinated with the upholstery fabrics and materials of the different collections.
