LENTI**

COLLECTION 2013

Il 2013 segna per la società Paola Lenti una tappa importante; alla vigilia dei venti anni di attività, l'azienda continua costantemente a percorrere la strada della ricerca verso una sempre maggior qualità, senza dimenticare l'importanza di orientarsi verso nuove fonti di ispirazione.

I prodotti sono eleganti, schivi e mai protagonisti; sono fedeli compagni di viaggio che non impongono la loro presenza nemmeno quando entrano a far parte del nostro vissuto quotidiano.

Esterno e interno si fondono ancora di più, raccordati da cromie più brillanti per l'esterno, più morbide e avvolgenti per l'interno. I colori sono puri e fluttuano fra mille luminose tonalità, senza la determinazione del nero e del bianco.

Il rispetto per la natura non si traduce più solo in una continua ricerca di soluzioni coerenti con la propria filosofia di vita e non invasive per l'ambiente, ma diventa sorgente di ispirazione per le nuove collezioni.

Ispirazione dalla quale nascono forme, decori e colori; essi portano all'interno significativi segni naturali e fanno vivere all'esterno elementi solidali in modo discreto con il verde, che arricchiscono senza nulla togliere a quanto la natura ha già creato.

Il nuovo impegno di Paola Lenti è quindi quello di guardare lontano, aiutando a germogliare un seme che avrà modo di svilupparsi naturalmente negli anni.

2013 marks an important milestone for the company Paola Lenti; after almost twenty years of activity, the company continues to pursue the path of research towards ever higher quality without forgetting the importance of guidance that may come from new sources of inspiration.

The products are elegant, sober and never the protagonists, they are reliable companions that do not make their presence felt even when they become part of our daily lives.

Exterior and interior are intrinsically blended by colour palettes which are more vibrant for the exteriors, softer and enveloping for the interiors. Colours are pure and fluctuate among thousands of luminous tones, avoiding the boldness of black and white.

Respect for nature is reflected not only in a more continuous search for solutions which are consistent with the company's philosophy and the environment, but it becomes a source of inspiration for the new collections.

Such inspiration leads to forms, décors and colours; they convey significant natural features into the interiors and allow for a harmonious coexistence of objects with the green surroundings, that enhance without taking anything away to what nature has already created.

Thus, the new commitment of Paola Lenti is to look ahead, and help a seed germinate that will be able to develop naturally over the years.

Le proposte 2013 per l'ambiente esterno sono un passo ulteriore verso una nuova concezione dell'architettura del paesaggio.

I tessuti e i materiali, frutto di progetti in continua evoluzione, rinnovano l'intera collezione, aumentandone le prestazioni e le varianti, non solo per le nuove proposte, ma anche per i prodotti già consolidati.

Le strutture ombreggianti, i tappeti e i complementi rispettano la natura, la assecondano con armonia, senza mai prevaricare, silenziosi nella loro sobria eleganza.

Le sedute, arricchite dalle centinaia di varianti cromatiche del nuovo tessuto Brio, permettono ancor di più di personalizzare il proprio mondo, scegliendo forme e colori che corrispondono alla sensibilità e allo stile personale.

The 2013 collections for exterior environments are a further step towards a new approach to landscape design.

The new fabrics and materials, originating from projects which continue to evolve, revive the entire product line improving the performance and the options offered by both the new products and the classics in the collection.

The shading structures, rugs and accessories respect and harmoniously merge with nature with sober and discreet elegance.

The seating pieces, enriched by hundreds color shades of the new fabric Brio, allow individuals to personalize even more their own world by choosing forms and colours corresponding to their personal sensitivity and style.

composition with a single hexagon element

composizione a tre elementi esagonali  
composition with three hexagon elements

Struttura ombreggiante componibile. Il sistema è costituito da un tetto esagonale e da pannelli laterali di supporto. Il posizionamento a terra prevede l'ancoraggio fisso su superfici dure o l'appoggio con zavorra su superfici morbide. L'elemento che funge da tetto è realizzato in alluminio, i pannelli di supporto hanno un profilo in acciaio inox; gli elementi si combinano attraverso l'uso di giunti in poliuretano e acciaio. Il rivestimento è disponibile in tela bianca di poliestere trattata anti-UV o in tessuto Thuaia, esclusiva Paola Lenti per l'esterno; il rivestimento è applicato alle strutture mediante un sistema che permette uno sganciamento veloce in caso di necessità e la conseguente messa in sicurezza della struttura.

Modular shading structure. The system consists of a hexagon shaped roof and support side panels. The structure is either fixed on hard surfaces or provided with ballasted base for installation on soft ground. The roof element is made of aluminium, while the frame of the support panels is in stainless steel; these elements are connected by means of polyurethane and steel joints. The cover is available in white polyester fabric treated to be UV-resistant or in Thuaia, Paola Lenti's signature fabric for exterior environments; the cover is fixed to the structure by means of a system which allows for a prompt release when necessary, assuring the safety of the structure.

Structure ombrante modulaire. Le système prévoit un toit hexagonal et des panneaux latéraux de support. Le produit peut être soit fixé sur surfaces dures ou bien pourvu de ballast pour l'appui libre sur sol meuble. Le cadre du toit est en aluminium, celui des panneaux de support est en acier inox; les éléments sont combinés entre eux par des joints en polyuréthane et acier. Le revêtement est disponible en toile blanche polyester traitée anti-UV ou en Thuaia, un tissu pour l'extérieur exclusif à Paola Lenti. Le revêtement est appliqué aux structures avec un système qui permet un décrochage rapide en cas de nécessité et donc la sécurité de la structure.

Estructura que da sombra mediante una serie de hexágonos utilizados como techo y paneles de soporte. Se puede fijar sobre superficies duras o colocarla sobre suelo blando usando una base con contrapeso. El techo es de aluminio, mientras que el marco de los paneles de soporte es de acero inoxidable. Las uniones entre los distintos elementos están hechas de poliuretano y acero. La cubierta está disponible en tejido de poliéster blanco, resistente UV o en Thuaia, tejido de exterior exclusivo de Paola Lenti. La cubierta se fija a la estructura mediante un sistema que permite desmontarla con facilidad en caso de necesidad, asegurando la seguridad de ésta.

Anbaubare Schattenstruktur. Das System besteht aus einem Hexagonaldach und Trägerseitenpaneelen. Das Gestell kann entweder auf harten Flächen fixiert werden oder mit Basis und Ballast für die Installation auf weichem Boden versehen sein. Der Dachrahmen ist aus Aluminium, die Trägerpaneele sind aus rostfreiem Stahl. Die Anbauteile werden durch Gelenke aus Polyurethan und Stahl zusammengesetzt. Der Bezug ist entweder aus UV-Strahlen beständigem, weißem Polyesterstoff oder aus Thuaia, ein Paola Lenti exklusiver Stoff für Außenbereiche, und wird auf der Struktur mit einem System befestigt, das schnelle Ablösen der Stofflagen im Fall der Notwendigkeit und demzufolge den Schutz der Struktur selbst erlaubt.

Cosmo, Hight Tech rug  
design CRS Paola Lenti

Tappeto per esterni ed interni. I motivi che costituiscono la superficie del tappeto sono realizzati interamente a mano con una corda in filato Rope in tinta unita o bicolore. Gli elementi utilizzati presentano dimensioni e lavorazioni diverse: per alcuni, la corda è cucita a spirale, per altri è disposta a formare moduli tondi decorati. Gli elementi sono poi uniti con punti eseguiti a macchina utilizzando un filato dello stesso colore della corda. Questo tappeto può essere prodotto anche su misura.

Rug for exterior and interior environments. The elements composing the surface of the rug are completely hand made with a one or two-colours Rope cord. The composing elements feature different dimensions and production techniques: some are created by sewing the cord in a spiral-like pattern, others are shaped to form round decorated modules. The elements are then sewn together with a yarn in the same colour of the cord. This rug is also available in custom dimensions.

Tapis pour l'extérieur et l'intérieur. Les éléments qui composent la surface du tapis sont réalisés à la main avec une corde en fil Rope teinte unie ou bicolore. Les modules utilisés présentent des dimensions et des techniques de production différentes: pour certains d'entre eux la corde est cousue en spirale, pour d'autres la corde est mise en forme à la main en modules ronds décorés. Les éléments sont ensuite cousus avec un fil du même coloris que celui de la corde. Ce tapis peut être produit aussi sur mesure.

Alfombra de exterior y interior. Los elementos que la componen están hechos a mano en cordón Rope monocolor o bicolor, son de distintos tamaños y con patrones distintos, unos consisten en un cordón en espiral, otros tienen patrones decorativos redondeados. Los elementos se unen entre si con un hilo del mismo color que el cordón. Esta alfombra se realiza también a medida.

Teppich für Außen- und Innenbereiche. Die Module, die die Teppichfläche bilden, werden mit ein- oder zweifarbigen Seilen aus Rope Garne handgemacht. Die angewandten Elemente bieten verschiedene Massen und Arbeitstechniken: bei einigen wird das Seil in spiralweise genäht, bei anderen wird es in verzierten Modulen per Hand geprägt. Die Elemente werden dann Ton in Ton zusammengenäht. Dieser Teppich ist auch in Sondermaße herstellbar.

200

200

Tappeto per esterni ed interni realizzato con la tecnica dell'hand-tufting. I punti bouclè utilizzati, allineati e regolari, formano una superficie densa e disegnata. Policromo e Policromo Double sono disponibili nelle stesse varianti di colore, ma l'effetto cromatico finale dei due tappeti risulta di tono diverso a causa della diversa dimensione dei fili con cui vengono prodotti: più piccoli quelli di Policromo, più grandi quelli di Policromo Double. Questi tappeti possono essere prodotti anche su misura.

240

200

Hand tufted rug for exterior and interior environments. The regular and dense bouclé stitches produce a full-bodied and accentuated texture. Policromo and Policromo Double are available in the same colours but the final chromatic effect results in a different tone due to the different dimension of the yarns used to produce the two rugs: thinner for Policromo, thicker for Policromo Double. These rugs are also available in custom dimensions.

240

240

Tapis pour l'extérieur et l'intérieur tufté à la main. Les points bouclés denses et réguliers forment une texture forte et dessinée. Policromo et Policromo Double sont disponibles dans les mêmes nuances, mais l'effet chromatique final des deux tapis donne une tonalité différente à cause de la dimension diverse des fils utilisés: plus minces ceux de Policromo, plus grands ceux de Policromo Double. Ces tapis peuvent être produits aussi sur mesure.

300

200

Alfombra de exterior y interior realizada mediante "tufting" manual. Los bucles densos y regulares forman su superficie dándole textura y profundidad. Policromo y Policromo Double están disponibles en los mismos colores, pero el efecto cromático final es diferente, debido a la diferencia de tamaño de los hilos utilizados: menor los de Policromo, más grande los de Policromo Double. Las alfombras se realizan también a medida.

Handgetufteter Teppich für Außen- und Innenbereiche. Die dichten und regelmäßigen Bouclé-Stiche entwickeln eine präzise und volle Textur. Policromo und Policromo Double sind in dieselbe Farben erhältlich; das chromatische Endeffekt der zwei Teppiche wird aber verschieden aussehen, wegen der Dichte der angewandten Garne: dünnere für Policromo, größere für Policromo Double. Diese Teppiche sind auch in Sondermaße herstellbar.

In the Key of Colour è un progetto innovativo nel panorama internazionale dell'arredamento per esterno, sia per la qualità tecnica dei materiali usati, sia per la sua grande versatilità. Questo sistema è in continua evoluzione e nasce dalle potenzialità di Rope, un materiale frutto di anni di sperimentazione e di ricerca.

Rope è un filato sintetico specifico per ambienti esterni, atossico e batteriostatico. E' tinto in massa in colori brillanti resistenti ai raggi UV, agli agenti atmosferici, all'acqua di mare e di piscina. Rope è un prodotto esclusivo Paola Lenti ed è idoneo a essere trasformato con tecniche diverse in corde, trecce e tessuti, per offrire la possibilità di scegliere, anche per l'ambiente esterno, gli stessi materiali sia per i tappeti sia per il rivestimento delle sedute.

I risultati che si ottengono con In the Key of Colour prevedono anche l'uso dei materiali e tessuti già esistenti, permettendo di passare attraverso decine di percorsi cromatici fatti di abbinamenti e contrasti, moltiplicando all'infinito le possibilità di espressione dei prodotti scelti, nuovi o classici che siano, in modo che tutti possano trovare il proprio stile più personale.

In the Key of Colour is an innovating project in the international furnishings for exterior environments, because of both the high quality of the materials, and for its great versatility. This system has continued to evolve and extend the real potential of Rope, a material developed over years of research and experimentation.

Rope is a synthetic yarn specific for exterior environments, it is non-toxic and bacteriostatic. It is mass dyed in bright colours which are resistant to light, atmospheric agents, sea and swimming pool water. Rope is exclusive to Paola Lenti and can be woven with different techniques into cords, braids and fabrics offering the possibility to choose, also for the exteriors, the same material for both rugs and upholstery covers.

The results that can be achieved with In the Key of Colour also include the use of already existing fabrics and materials, allowing to execute dozens of unique chromatic suites, based on matching or contrasting colour shades, endlessly multiplying the expressive possibilities of new and classic Paola Lenti pieces, so that everybody can find their own personal style.

Le proposte 2013 per l'ambiente interno segnano l'inizio di un nuovo percorso di ricerca. I materiali, le finiture, i colori, l'ispirazione stessa della nuova collezione prendono spunto da elementi naturali.

I nuovi prodotti stilizzano la natura e trasportano all'interno le tonalità del cielo, del mare, dei prati e dei fiori, per farci assaporare le diverse stagioni anche in casa.

Le forme e i materiali delle sedute e dei complementi per interno si raccordano con l'esterno attraverso il colore, eliminando contrasti e contrapposizioni, in un insieme fluido e armonioso. I tappeti, prodotti con complessi ricami geometrici e disegni contemporanei, sono morbidi e accoglienti e ancora una volta sorprendono per il riuscito matrimonio fra la qualità dei materiali e l'artigianalità delle lavorazioni.

The 2013 collections for interior environments mark the beginning of a new path of research. The materials, finishes, colours that are intertwined elements of this collection are all inspired by natural elements.

The new products stylize the nature and bring into the interior the colours of the sky, the sea, the meadows and the flowers, to allow us to savor the different seasons inside our home.

The forms and materials of the seating and complements for the interiors are connected with the outside world through colour and naturally merge without contrasts and contradictions. The rugs, reproducing intricate geometric embroideries and contemporary designs, are soft and inviting and once more amaze us for the successful marriage between the quality of the materials and the artistry of the handiwork.

Sistema di sedute modulari da interno con schienale regolabile. La serie è composta da elementi con bracciolo, elemento centrale e angolare, chaise longue e pouf. La struttura a vista è realizzata in legno multistrato curvato; è disponibile in essenza tinta nei colori sabbia, calce, grigio o grigio scuro, oppure laccata opaca in colori abbinati al rivestimento. I cuscini sono in poliuretano espanso indeformabile. Il rivestimento è sfoderabile e disponibile in una vasta gamma di colori e tessuti di collezione. Gli schienali si alzano e si abbassano grazie a un meccanismo di pistoni a gas. Completa la serie un tavolino di servizio in legno, disponibile nelle stesse finiture della struttura del divano.

Sectional sofa for interior environments with adjustable backrest. The series consists of left and right, central, corner, chaise longue and pouf elements. The visible structure is made of multilayer bentwood, which is available both veneered and dyed in sabbia, calce, grigio or grigio scuro colour, or lacquered in matt colours matching the upholstery cover. Cushions are made of stress resistant expanded polyurethane. The removable upholstery cover is available in a wide range of fabrics and colours in the collection. The backrests can be raised or lowered thanks to a gas pistons mechanism. The series is completed by a wooden side table available in the same finishes of the sofa's structure.

Canapé modulaire pour l'intérieur avec dossier réglable en hauteur. La série est composée d'éléments avec accoudoir, d'éléments centraux, d'angle, d'une méridienne et de poufs. La structure visible est réalisée en bois multiplis cintré disponible en finition plaqué bois teinté coloris sabbia, calce, grigio ou grigio scuro, soit laqué mat en coloris coordonnés au revêtement. Les coussins sont en polyuréthane expansé indéformable. Le revêtement déhoussable est disponible dans une gamme variée de tissus et de coloris. Les dossiers se lèvent et se baissent grâce à un mécanisme de pistons à gaz. Une table basse, réalisée dans les mêmes finitions que celles utilisées pour la structure du canapé, complète la série.

Sofá modular de interior, con respaldo de altura regulable. La serie está compuesta por elemento terminal, central, angular, chaise longue y pouf. La estructura, a la vista, es de multiestrato curvado y chapado en madera teñida en color sabbia, calce, grigio o grigio scuro. También disponible en laca opaca o colores combinados con el tejido que se utilice para tapizar. Los cojines son de poliuretano expandido indeformable. Son desenfundables y se pueden tapizar en la vasta gama de colores y tejidos de la colección. Los respaldos se elevan o se bajan gracias a un pistón de gas. Completa esta serie una mesa auxiliar en madera, disponible en los mismos acabados de la estructura del sofá.

Anbausofa für Innenbereiche mit verstellbarer Rückenlehne. Die Serie besteht aus End-, Mittel-, Eck-, Chaiselongue Elementen und Hockern. Das sichtbare Gestell ist aus Multiplex Bugholz und ist mit sabbia, calce, grigio oder grigio scuro gefärbten Furnier erhältlich oder in den gleichen Farben des Stoffbezugs mattlackiert. Die Kissen sind aus unverformbarem Polyurethanschaum. Der abnehmbare Bezug ist in einer breiten Palette von Kollektionsfarben und -Stoffen erhältlich. Die Rückenlehne steigen und sinken ab dank eines Gaskolbenmechanismus. Ein Holzbeistelltisch ergänzt die Serie und ist in den gleichen Ausführungen des Sofas erhältlich.

Serie di tappeti da interno con decorazione realizzata a mano. Il ricamo viene eseguito con corde piatte in lana tinta unita su un tessuto intrecciato sintetico di supporto; questo tessuto forma il backing del tappeto. I tappeti Petit Point possono essere realizzati con diverse tipologie di decoro, in tinta unita o a più colori. In tinta unita, la decorazione è ottenuta accostando punti diversi. A più colori, il decoro può essere a piccoli fiori allineati oppure con un disegno a fiori che ricopre l'intera superficie del tappeto. Questi tappeti possono essere prodotti anche su misura.

Series of hand embroidered rugs for interior environments. The embroidery is executed with wool flat braids on a synthetic backing made of an open weave supporting fabric. The Petit Point rugs are created with different patterns, in solid colours or in colours combinations. The pattern in one solid colour is obtained by combining different stitches. In different colours, the pattern can reproduce aligned little flowers or a floral design covering the whole surface of the rug. These rugs are also available in custom dimensions.

Tapis pour l'intérieur brodés à la main. La broderie est réalisée avec des tresses plates en laine teintée unie sur un tissu synthétique de support qui constitue le backing du tapis. Les tapis Petit Point offrent des décors différents, teinte unie ou en plusieurs coloris. Teinte unie, le décor est obtenu par l'application de points différents. En plusieurs coloris, le décor peut créer des petites fleurs alignées ou bien des grandes fleurs sur toute la surface du tapis. Ces tapis peuvent être produits aussi sur mesure.

Alfombras de interior tejidas a mano. Su decoración consiste bordando cintas planas de lana sobre una base sintética de trama abierta. Las alfombras Petit Point están disponibles con distintos patrones en colores lisos o combinados. El patrón de un solo color se obtiene combinando puntadas distintas. En colores diferentes, el patrón puede reproducir pequeñas flores alineadas o un diseño floral que cubre toda la superficie de la alfombra. Las alfombras se realizan también a medida.

Teppichserie für Innenbereiche mit handgesticktem Muster. Die Stickerei wird mit einem oder mehreren einfarbigen flachen Wollseilen auf einem netzartigen, synthetischen Backing verwirklicht. Die Teppiche Petit Point bieten verschiedene Muster: einfarbig wird der Teppich mit verschiedenen Stickereien verwirklicht. In mehreren Farben kann die Verzierung entweder aufgereimte Blümchen oder große Blumen auf die ganze Teppichfläche wiedergeben. Diese Teppiche sind auch in Sondermaße herstellbar.
