LAZE 003 Rocking chair

design GORDON GUILLAUMIER

DESCRIPTION

Rocking chair for outdoor use.

STRUCTURE

AISI 304 stainless steel frame treated with electrostatic powder painting with polyester base that gives more protection from scratches and also the final coloring to the product.

CORDS

Double-twisted 100% polyester or acrylic thread, in cotton finishes; great toughness and great resilience, high resistance to abrasion, to heat, to bending stress, high modulus of elasticity, minimal wet regain, and good resistance to chemical agents and to bad weather conditions.

They have a color fastness to light of 7 in the blue scale, which is the best achievable goal for this kind of material (the maximum of the scale is 8): the color does not degrade up to 315 hours of direct continuous light.

CUSHIONS

Standard or hydro draining

WEIGHT

Structure: 25 kg
Cushions (seat): 1 kg
Cushions (seat+back): 2 kg
