

Pad made of elements in tubular knit padded with vegetable fiber.

**The natural materials featured in the Eres collection can be used outdoors, but not be directly exposed to the elements, and require some extra attention and care than traditional outdoor furniture. These products need to be used under a stable cover and to be protected overnight. It is also recommended that they are sheltered indoors for seasonal protection. Some of the materials will mature and will change appearance and colour over time. And this will naturally happen.**

**Pad:** tubular knit Chain Outdoor in linen padded with paineira vegetable fiber.

**Notes:**

The entirely natural padding of the Plump pad guarantees the same comfort of a traditional synthetic padding.

The paineira vegetable fiber is water repellent, non-allergenic and completely biodegradable.

The product can be used also in interior environments.
