

CH33P

HANS J. WEGNER

CARL HANSEN & SØN

DESCRIPTION

Hans J. Wegner's CH33P, with upholstered seating, is based on the idea of creating an attractive and sturdy chair with sensible ergonomics while maintaining a finer dimension in the wood where possible. Therefore, the tapered legs are thickest where they need to support load-bearing joints with the seat's rails and become slender closest to the floor.

PRODUCTION PROCESS

The back is steam bent and all other parts are processed on machines. Afterwards they are polished and assembled by hand. After treatment the upholstery is mounted on by hand as well.

DESIGNER

Danish architect Hans J. Wegner (1914-2007) is considered a pioneering furniture designer of the twentieth century. Often referred to as the master of the chair, Wegner created almost 500 in his lifetime – many of them considered masterpieces. Wegner was part of the spectacular generation that created what is today referred to as 'the Golden Age' of modern Danish design.

MATERIALS

Note that oak has a clearly visible wood structure when painted. Beech has minimal structure when painted.

- Chair back & seat: Veneer
- Seat: Foam with upholstery in all fabric and leather groups

PREASSEMBLED

Yes
