

Tune is a modular rug for exterior and interior environments created by joining woven bands in Twiggy yarns with a width of about 14,5 cm. The bands are sewn lengthwise at a distance of about 5 millimeters from each other on flat braids in the same material that remain visible. The border of the rug is finished with a mélange cord in the same colour of the bands that form the surface of the rug. Only one colour for the bands and one for the braids can be chosen.
